## ● AYMARA CONSTELLATION OBSERVATION

Puno's clear skies and the Altiplano's serenity collaborate to make the lake's environment a perfect place for astrological observation. Layer up before stepping outside to our lodge gardens where your guide will explain the movement of stars and locate constellations such as the Wawawara Hawira, or Milky Way.

Learn about the religious beliefs of the Andean societies, with duality between the sun and moon serving as origin of the world and cosmic order. Partake in the oral tradition, a local source of knowledge, as you listen to legends and stories passed down from generations from ancestral time to this day.
